February 2026 – Present

## About Me

I am a passionate Web Developer with strong skills in front-end technologies like HTML, CSS, JavaScript, Tailwind css and Bootstrap. And, I enjoy turning ideas into clean, responsive, and user-friendly designs. I am always learning new tools and improving my skills to deliver better results. My goal is to grow as a professional developer and contribute to meaningful digital projects.

## Projects

**Gadget Guru:** Can Purchase Products

**Technology:** JS, CSS, HTML, Tailwind CSS, Firebase Auth.

- **User Registration And Authentication :**
  Allow Users To Register And Log In To Access Additional Features And Personalize Their Experience.
- **Private Routes :**
  Implement Private Routes That Require Authentication, Ensuring That Only Logged-In Users Can Access Certain Pages Or Features.
- **Brand Card Click Handling :**
  When A User Clicks On A Brand Card, Redirect Them To A Dynamic Route Showing Products Related To That Brand.
- **Add To Cart :**
  Allow Users To Add Products. Update The Cart Dynamically Without Requiring A Page Refresh.
- **Product Details Page :**
  Create Individual Product Detail Pages Where Users Can View Detailed Information About A Product, Including Images, Descriptions, And Prices Or Rating.
